1. All activities receiving disposal support from DRMOs will coordinate turn-ins by contacting the appropriate section (usable and scrap property - Receiving Section; Hazardous Property - Environmental Branch). Information required at the time an appointment is scheduled includes the Unit DODAAC, type of property, number of truckloads anticipated, number of disposal turn-in documents (DTIDs), and the desired date for the turn-in. All property must have a completed **Disposal Turn-In Document (DD Form 1348-1A)**. Completed [Sample 1348-1As](#). (Revised 3/03)

2. Contact with [DRMO](#) personnel is mandatory prior to turn-in of hazardous property. Property to be turned in may require pre-inspection by the DRMO environmental specialist. (If appropriate 100% pre-inspection may take place.) Pre-inspection will be performed at your location to ensure documentation is accurate and complete, and containers are properly prepared for transport to the DRMO or for receipt in place. Pre-inspection takes place under the following conditions:

Receiving hazardous property in place.

Requested by you the generator.

3. Please schedule any turn-ins of hazardous property not requiring pre-inspection or for property that has been pre-inspected and is ready for transport to the [DRMO](#) to ensure adequate time for unloading before the end of the workday.
